Dear Parents,

This is to bring to your kind notice that the safety and security of our students is our top priority. In view of increasing road-safety concerns, the school has revised its guidelines for students commuting on two-wheelers.

1. Under-age students are strictly not allowed to bring geared vehicles to school.

Only those students who hold a valid driving licence and meet the legal age requirement may bring geared vehicles.

2. Students must wear a proper helmet while driving to and from school.

Any student found riding without a helmet will not be allowed to park the vehicle inside the school campus.

3. Parents are requested to ensure that their ward follows all traffic rules and drives responsibly.

Your cooperation is essential in ensuring a safe environment for all our students.

Warm regards

Principal
